GPA: 2.8

### PROFILE

With the passion to go the extra mile and a strong believer in collaborative effort, I can execute tasks in crunch time with finesse. As a UX designer and researcher, my philosophy for success lies in making a big impact through the most effortless and feasible changes; and by applying this philosophy in the projects that I have completed successfully, I have developed a keen eye for minuscule details that are sometimes overlooked.

Willing to relocate: anywhere

Sponsorship required to work in the US

### WORK EXPERIENCE

#### UX Designer

Triquetra Technologies

06/2020 - 08/2020

- Designed a healthcare app that enables patients to remotely access and schedule healthcare services
- Created wireframes and prototypes for the developer team
- Made creative decisions and setting design standards for the application
- Designed a maternity tracking application for pregnant women

#### Client Service Representative

University of North Texas

10/2019 - 02/2020

- Assisted the design team in editing posters for bringing in more students to purchase meal plans
- Managed production of labels and name tags, for the dining services
- Photographed new food products for campus advertisements

#### Advisor

247.ai

08/2018 - 12/2018

- Resolved problems for client company Expedia(UK) through the International voice processing team that improved customer feedback and ratings
- Gained considerable amount of communication and problem solving techniques by helping customers affiliated with Expedia Air with queries regarding flight and hotel bookings
- Coordinated with the Back-Office to process pending refunds and waivers on flight bookings and cut losses due to third party errors
